Features

- Handheld Device.
- 32-bit ARM Cortex-M3 based measurement.
- Low power consumption.
- Water and dust proof sensor casing.
- Protective dome given for safety of sensor.
- Detection range 0 to 2000W/m²
- Wi-fi communication
- Operating voltage: +5V
- 16x2 LCD display
- Sensor connector-DIN type
- Cable length:1meter
- Mobile friendly App to monitor the data remotely
