Features and Specifications

- For connecting 1 kWatt solar panel with DC fuse, DC MCB, and surge suppressor protection.
- This Solar Array Junction Box is engineered to efficiently combine DC solar string inputs into one unified output, reducing cable clutter and improving system organization. It ensures smooth and reliable DC power transfer from solar panels to the inverter.
- Advanced Surge Protection SPD : Integrated with a high-performance Surge Protection Device, this AJB provides robust defense against lightning surges, transient over-voltages, and electrical disturbances.
